NR-2: NATURAL RESOURCES					
Development standards shall be as established in the State or Federal approved authorization. Where a State or Federal authorization does not address a development standard the provisions shall apply as determined by the Planning Director as provided for in Section 3505.01.					
PUD: PLANNED UNIT DEVELOPMENT					
Development standards shall be as established in the County approved PUD designation. The provisions of Figure 3-5 shall be used as guidelines in the preparation of PUD designations. Regulations and standards that differ from those stated in this figure may be adopted as part of a PUD designation because of special circumstances or in order to achieve certain development or design objectives. It is the County's intent in providing for PUD districts to allow such flexibility in development regulations and standards. After a PUD designation is adopted, the development regulations and standards stated in the PUD designation shall supersede the provisions of this figure. Where a PUD designation does not address a development standard, the provisions shall apply as determined by the Planning Director as provided for in Section 3505.01.

FOOTNOTES					
1. Figure 3-5 provides a summary of development standards pertaining to density, height limits, site area, site coverage, and walls and fences for County zoning districts. Section 3505 provides further explanation of these requirements including important definitions and methods of calculation. It is important to note that the information in this figure is not all-inclusive. It must be used in conjunction with the text in Section 3505 to identify the requirements applicable to a development. Figure 3-6 provides a summary of required setbacks for the various County zoning districts.					
2. Additional regulations pertaining to density are stated in Section 3505.02. The maximum zoned density limits listed in Figure 3-5 represent the theoretical maximum or absolute ceiling of density allowed on a property in a given zoning district. The ultimate zoning density that can be achieved on any given lot may be further restricted by: application of master plan goals or policies, subdivision regulations, development standards, other provisions in the Code, or any other laws, rules, or regulations.					
3. Additional regulations pertaining to height limits are stated in Section 3505.06.					
4. Additional regulations pertaining to site area are stated in Section 3505.14.					
5. Additional regulations pertaining to site coverage are stated in Section 3505.15.					
6. Maximum Zoned Density excludes residential uses. One caretaker unit and bunkhouses for employees are allowed as a conditional use in association with an active mining operation in accordance with Section 3809.04 et. al.					
7. Additional regulations pertaining to walls and fences are stated in Section 3505.17					
8. Height limits as stated under General are applicable to residential and other buildings/structures as noted.					

FIGURE 3-5

DEVELOPMENT STANDARDS MATRIX¹ (MAXIMUM ZONED DENSITY, HEIGHT LIMITS, SITE AREA, SITE COVERAGE, WALLS/FENCES)

ZONING DISTRICT	MAXIMUM ZONED DENSITY ²	HEIGHTS LIMITS ³	SITE AREA ⁴	SITE COVERAGE ⁵	WALLS/FENCES ⁷
9. These standards shall be established as part of the CUP approved for the community facility.					
10. No exceptions allowed in minimum lot size requirement for these uses. These uses shall not be established on nonconforming lots, whether deemed legal or illegal.					
11. Height limits to be established through conditional use permit, location and extent approval, or 1041 permit, whichever is applicable.					
12. Exemption from site area requirements is not an exemption from the requirement to plat the site.					
13. Site area requirements are not intended to preclude the creation of phasing or footprint lots which are smaller than the minimum required, as long as requirements of Section 3505.14 are met.					
14. Parcels created through the rural land use subdivision process may have additional restrictions on use. Please refer to Section 8424 to determine use restrictions that may apply.					
15. Requirements listed under general for a district apply to all land uses in the district unless a different requirement is listed for a specific land use.					
16. Allowance is made for lots of less than the minimum site area when subdividing a lot developed with a duplex; see Section 3505.14.					
17. Variation of site area and site coverage requirements in the R-P and R-25 zoning districts may be allowed by the Review Authority upon submission and approval of a detailed site plan.					
18. Density and dimensional requirements, other than building height, shall be determined as part of required site plan review for any properties in the SU-1 and RP zoning districts.					
19. Additional regulations pertaining to tower mounted wind turbines are stated in Section 3507.02.					
20. The height limit for a detached or caretaker unit, as applicable, ADU is 35' as stated in Section 3809.03.E.1.b.ii
